Kalyan Bhattacharya, M.Sc.UK
Construction Project Management Professional, UK & India

26 September 2020

To whom it may concern:

REFERENCE FOR DEBJANI DUTTA

Debjani liked the words in our social work literature which said '.....we need to bring about a culture where every person should regard every other person with love, dignity and respect. Culture creates a system and discipline which in turn builds a nation'. This drew my attention.

What I noticed she thinks for the nation and its suffering people. She appears to be sensitive and humane. She is also intelligent and quick witted. She could take up anything new with delight.

I understand that she has the skill and ability to organize and manage office work very effectively. She has had experience of managing the office for over ten years as a middle level executive in Export Promotion Council looking after Jute Products. She is dependable and trustworthy.

The part of her educational career is of course dismal. After her early marriage when she passed Higher Secondary Examination, she had to undergo challenging domestic situations and consequently could not complete her B.A. Part I examination. She had to take up a job for the survival of her family including two girl children. It would not be prudent to weigh her educational abilities against the conventional graduation scale. She is much beyond that. Given proper atmosphere and guidance she could excel in many areas. She has a lot to offer.

Yours faithfully

Kalyan Bhattacharya
